Subject: RE: Example Cross Sections EPA's Technology Assignments

Kristine –

The following action item was discussed in our May 22 FS technical meeting and captured in last Friday's action items list:

- “LWG to create some additional cross sections through some SMAs and provide as figures.”

The action item refers to cross sections through SMAs depicting EPA's draft technology assignments. The attached provides this information as part of the non-binding informal information exchange process for the FS technical discussions. These example cross sections may be useful in our upcoming meetings on technology assignments on June 5th and 10th. We will be prepared to walk through them as necessary on June 5th to assist in the discussions.

Please let me know if there are any questions.

Thanks.

Carl
